

## CONSERVATION VOLUNTEERS NEEDED – SHARE YOUR TIME

### *Quintana Spring Fling*

Want to spend a day, a week, or a month birding the fabulous Texas Coast during spring migration? Then you would love being a volunteer host for our Quintana Spring Fling during the month of April. Keep the daily bird and visitors logs, lead a beginner's bird walk, and visit with guests from around the world. We need volunteers for any length of time from an afternoon to the entire month.

### *Site Partner Network Liaison*

Our Site Partner Network is an invaluable resource to conservation organizations around the Gulf of Mexico and to the birds themselves. We need volunteers to make site visits to interface with partners in both the U.S. and Mexico and provide GCBO with information on site needs and future plans so that we can help provide effective conservation.

### *Adopt-A-Habitat Gardeners*

GCBO's Lake Jackson and Quintana, TX sanctuaries have numerous wildlife habitat gardens that are in need of tender loving care. Our habitats include mini-versions of Coastal Prairie, Bottomland Forest Understory, a Native Plant Nursery, and the Tveten Memorial Butterfly Garden. Each garden needs an individual or team to make it thrive throughout the year.

### *Great Texas Birding Classic*

The GTBC is a friendly, but serious birding for conservation tournament. Every April teams vie to see who can spot and record the most bird species in a given time period. Needed are mentors for youth teams, help with collecting team prizes and auction items, and your own sponsored teams. Call us to learn how you, your business or community can be involved in this event.

### *Speakers Bureau*

Each month of the year GCBO is called upon to participate in region-wide public events and workshops. Often we take our beautiful display to indoor and outdoor festivals, or we give prepared lectures on birds and coastal conservation. If public education is your forte we would enjoy having your help and we will provide training, materials and background information.

Contact us with your interest and we'll get you all the details you will need to foster bird conservation! [www.gcbo.org](http://www.gcbo.org); [info@gcbo.org](mailto:info@gcbo.org); 979 480-0999.
